

Respiratory Quality Improvement Programme

**Everyone - knowing, learning, doing . . .
The things that really matter**

Register for an innovative free programme supported by a dynamic, pioneering web platform that provides primary care professionals, such as GPs and nurses, in West Yorkshire with the resources and education to improve patient outcomes.

"It's about thinking 'what else can I do to help my patient live with their breathlessness' and that's where the high value interventions come in"

Dr Katherine Hickman
Respiratory Specialist GP,
Bradford

The programme helps to shape patients' outcomes by:

- ✔ **Knowing** - The web platform contains the most up to date pathways, guidelines and resources
- ✔ **Learning** - An education library that contains TV shows, tutorials and videos delivered by national and local experts
 - Assessments to test your knowledge ... all supported by local tutors
- ✔ **Doing** - A series of Quality Improvement (QI) projects

**Available
now**
