

Pathways to Progression in Psychological Professions Project (P2P3)

How to access

To gain access to the P2P3 platform on Blackboard, please follow the guidance below.

Please ensure that you discuss with your supervisor before registering. After completing the process below, you will be required to email Clare Dowzer at c.n.dowzer@leeds.ac.uk (copy in your supervisor) who will confirm your access.

If you have any questions, please email the P2P3 project lead, David Turgoose, david.turgoose@bdct.nhs.uk

Pathways to Progression in Psychological Professions Project (P2P3)

How to register for the platform.

Please note, you will need to register using your work/NHS email address.

Creating a Blackboard Account, Enrolling onto, and Accessing P2P3

P2P3 is hosted on Blackboard, a Virtual Learning Environment that is used to deliver training and give access to learning materials.

Creating your account

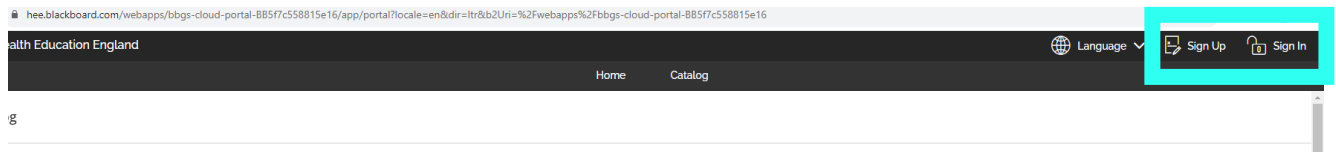

To start using Blackboard for P2P3, you will first need to have an account.

Register for an account via the Health Education England, Yorkshire and Humber Education and Learning Portal (HELP) using this link: [Health Education England \(blackboard.com\)](https://blackboard.com)

If you already have an account on NHSE Blackboard Learn, you do not need to create a new account on HELP, as your login details for Blackboard Learn and the HELP platform are the same.

Once you have loaded the HELP page, you will have the option to log in or sign up at the top right-hand side of the screen as in the screen snip below:

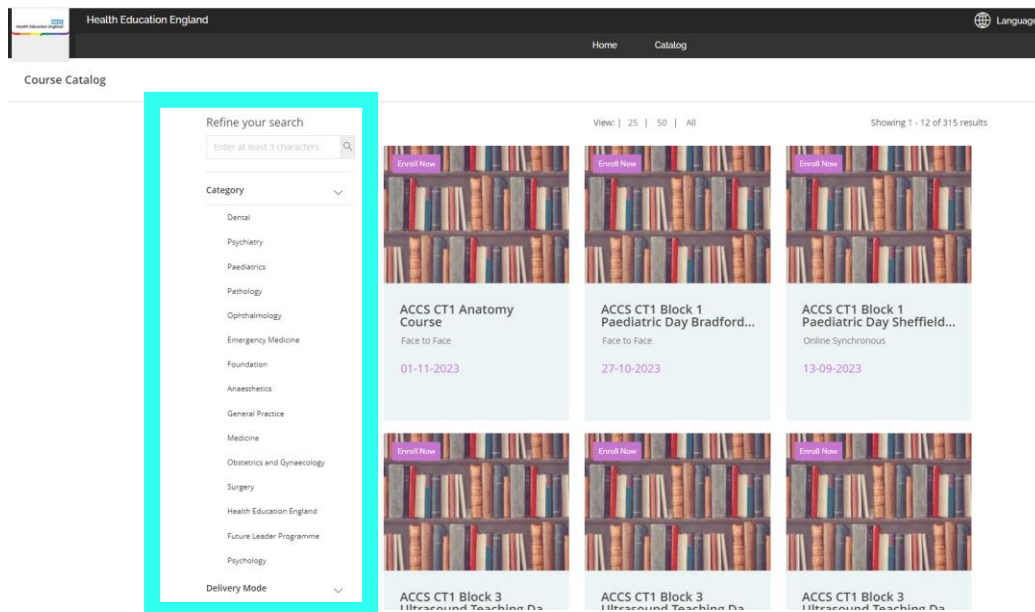

Creating a Blackboard Account, Enrolling onto, and Accessing P2P3

Please note that when creating a password, it needs to be at least 12 characters long, be alphanumeric, with at least one capital, and contain a special character. For example, 'Welcome2023!' would work.

Enrolling onto P2P3

Once you are logged into HELP, you can use the Catalogue to find the courses that you want to enrol into by filtering the available courses by School in the left-hand menu on the catalogue page. **P2P3 is listed under Psychology in the left navigation menu.** You can also start typing a course name into the search box if you know the name of the course you are looking for. See screen shot below.

If a course is available for booking, you will be able to click on the 'Enrol Now' button within the course once you have clicked into it from the catalogue.

Once you have been through the registration process, please email Clare Dowzer at c.n.dowzer@leeds.ac.uk and copy in your supervisor. This will allow verification of your account. You will not be given access to the platform without sending this email.

Home Catalog My Dashboard

Refine Enter at least 3 characters

HEE Blackboard 101 Resource Hub

This course contains a variety of resources which have been designed in order to support the use of the HELP system, Blackboard and Collaborate for both accessing and delivering teaching/training.

Course Starts : 02-02-2022
Enrollment Open : 02-02-2022

Enroll Now

About this course

Delivery Mode: Online Synchronous
Category: Health Education England
Availability: Immediately
ID: OF009

Accessing P2P3

P2P3 is not an open resource. People requesting enrolment onto P2P3 require approval. This may take a few days.

Once enrolled, P2P3 will start showing in your 'My Dashboard' area on HELP, either in the Current section if the course is immediately available, or in the Upcoming section if the start date has yet to arrive.

Navigating the P2P3 content

All of the content available through P2P3 is contained within 5 different folders:

- How to use P2P3
- Theories and models
- Clinical skills
- Research skills
- Professional issues

You can navigate between the different folders to find content you want to access. Content is in different formats, e.g. videos, presentations, links to useful resources, E-learning, and important documents.

P2P3 is a developing resource, so content will continue to be added over time. Please bear with us while we work to get everything created and uploaded!

You can also use Blackboard to connect with other P2P3 users and to get announcements about new content, news and events.
